1900

A Carved Oak Panelled Room, Comprising: Two Doors with urn and foliate carved overdoors, Panelling with foliate borders and flowerheads, Overmantel Mirror, and Verde Antico Marble Fireplace with ormolu mounts.

The oak panels can be arranged in any number of combinations and a large quantity of extra mouldings and frames are also included, which are suitable for window openings. Depending on the size of the window openings and the number of doors in the room, the panelling would adapt to approximately 22 to 25 metres (for example 6 metres by 5 metres with one door or 6 metres by 6 metres with two doors would be possible).

The height of the panelling could be adjusted slightly by moving the skirting board. The Verde Antico Louis XVI Style Fireplace with Mirror Surround are also included in the room.
